A Money Matters: Make it CountSM Event Facilitator Planning Guide

Reality Store extends the impact of Money Matters: Make It Count SM, which builds the decision-making and behavioral skills of teens in core financial concepts such as goal-setting, budgeting, spending wisely, saving and investing. Teens envision the lifestyle they would like to have when they are in their late 20s and receive one month's salary to spend on basic living expenses for their family. Juggling income and expenses, teens will experience financial opportunities as well as setbacks, and develop positive behaviors they can apply in their own lives. The game helps teens discover if their occupation provides the financial resources needed to live the lifestyle they want.
